

INTERNATIONAL SEARCH REPORT

International application No.

PCT/US05/03183

A. CLASSIFICATION OF SUBJECT MATTER

IPC(7) : C07D 245/00, C07D 209/04, C07D 207/33, C07D 209/48

US CL : 564/300, 548/483, 548/557, 548/475

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

U.S. : 564/300, 548/483, 548/557, 548/475

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)
STN Online (CAPLUS)

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	BIVALACQUA, T. Analysis of vasodilator Responses to Novel Nitric Oxide Donors in the Hindquarters Vascular Bed of the Cat, J. of Cardiovascular Pharm. (2001) 38(1), pp. 120-129, especially fig. 1.	46
Y	XIAOPING T. Synthesis of Peptide-diazeniumdiolate conjugates: towards enzyme activated antitumor agents, Tetrahedron Letters (2001) vol. 42, pp. 2625-2629, especially p. 2625.	46
X	ALOKA S. Chemistry of the Diazeniumdiolates, J. Am. Chem. Soc. 2001, 123, pp. 5465-5472, especially p. 5469 (Scheme 4, compound No. 6).	46

Further documents are listed in the continuation of Box C.

See patent family annex.

Special categories of cited documents:	
"A" document defining the general state of the art which is not considered to be of particular relevance	"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"E" earlier application or patent published on or after the international filing date	"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)	"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
"O" document referring to an oral disclosure, use, exhibition or other means	
"P" document published prior to the international filing date but later than the priority date claimed	"&" document member of the same patent family

Date of the actual completion of the international search

INTERNATIONAL SEARCH REPORT
Information on patent family members

International application No.
PCT/US05/03183

The numerous variables, such as R1, R2, m and n for instance, and their voluminous and complex meanings and their virtual incomprehensible permutations and combinations make it impossible to determine the full scope and complete meaning of the claimed subject matter. As presented, the claimed subject matter cannot be regarded as being a clear and concise description for which protection is sought and as such the abovementioned claims (1-45 and 47-52) do not comply with the requirements of PCT Article 6. Thus, it is impossible to carry out a meaningful search report on same. A search was carried out on the first discernable invention, which is Claim 46, based on the compounds in Table 1 of the specification.

INTERNATIONAL SEARCH REPORT

International application No.

PCT/US05/03183

Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:
2. ☒ Claims Nos.: 1-45 and 47-52
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3. ☐ Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest

☐
☐

The additional search fees were accompanied by the applicant's protest.

No protest accompanied the payment of additional search fees.
